DR. WHO
and the French Revolution

A NEW ADVENTURE BEGINS ON SATURDAY

No MATTER how much some of us may want to, it is quite impossible to turn back the hands of time—and equally impossible to project ourselves forward in time and space. Impossible for us ordinary humans that is—but that strange old gentleman of uncertain age, Dr. Who (**William Hartnell**) has no difficulty at all in jumping straight out of the far-distant future back through time to the eighteenth century and right into the middle of the French Revolution.

Such is the setting for Saturday's opening episode of a new adventure for the Doctor and his friends. Written by Dennis Spooner, this adventure is basically a spy story—the group becomes involved in a type of 'Pimpernel' operation trying to rescue people destined for the guillotine—which does not interfere with the course of history but instead uses one of the most colourful and adventurous times in history as a thrilling background to the story.

Dr. Who

The Reign of Terror is in full swing in Paris. Ian and Barbara are waiting for Dr. Who and Susan to arrive from prison. At last the door opens and Dr. Who walks in—not with Susan but with Lemaitre and some soldiers. Lemaitre, it transpires, is holding Susan prisoner, but he says he comes as a friend. As proof of his goodwill he tells them that he connived at their escape from prison—at 5.30
